

SAT Energy Solutions (Pvt) Ltd

Headline: Powering the Nation, One Ray at a Time.

"At **SAT Energy Solutions (Pvt) Ltd**, a proud member of the **SAT Holdings Group**, we are committed to building the renewable infrastructure Sri Lanka needs for a sustainable future.

We are proud to announce the successful commissioning of our **500kW Rooftop Solar Project in Vitharandeniya, Tangalle**. This landmark installation, consisting of 775 high-efficiency 620W solar panels and a dedicated transformer station, is now officially connected to the National Grid. With an annual yield of **800MWh**, we aren't just generating electricity; we are reaffirming our significance in the nation's journey toward clean, green energy."

⚡ **500kW** Capacity | ☀️ **775** Panels | 🔌 **4** Inverters | 🌱 **800MWh** Annual Yield

SAT Electronics Pvt Ltd

Proudly Made in Sri Lanka. Engineered for the Sri Lankan Home

"At **SAT Electronics Pvt Ltd**, we believe in the power of local industry. We are a premier manufacturer of high-quality household appliances, proudly carrying the '**Made in Sri Lanka**' label.

Our flagship manufacturing line specializes in **Rice Cookers**—designed specifically to meet the culinary needs and durability standards required by Sri Lankan households. By manufacturing locally, we ensure:

- **Superior Quality Control:** Every unit is tested for the local voltage and climate.
- **Affordability:** Reducing import costs to pass savings directly to our customers.
- **Local Growth:** Supporting the national economy and providing skilled jobs for our community.

When you choose SAT Electronics, you aren't just buying an appliance; you are supporting a vision of a self-reliant, technologically advanced Sri Lanka."

- **Durable Build:** Heat-resistant outer body with premium non-stick inner pots.
- **Energy Efficient:** Optimized power consumption to suit Sri Lankan electricity standards.
- **Advanced Safety:** Built-in thermal fuse protection for worry-free cooking.
- **Local Warranty:** Full service and spare parts availability across the island.

"Engineered for the Sri Lankan kitchen, the SAT Premium Deluxe Rice Cooker combines durability with advanced heating technology. Manufactured locally at our state-of-the-art facility, every unit is built to withstand local power fluctuations and heavy daily use."

Technical Specifications Table:

Feature	Specification
Capacity	1.8L / 2.2L / 2.8L Options
Power Supply	230V / 50Hz (Optimized for SL Grid)
Inner Pot	High-Grade Non-Stick Coated Aluminum
Heating Element	Rapid-Heat Tech with Keep-Warm Function
Safety	Dual Thermal Fuse Protection
Included	Measuring Cup, Steamer Tray, Non-Scratch Spoon
Warranty	12-Month SAT Manufacturer Warranty

SAT Holding Group Milestone

Our Journey – Building a Legacy of Excellence

"From our humble beginnings to becoming a diversified multi-industry leader, the SAT Holdings Group has always been driven by a single purpose: to empower Sri Lanka through local innovation, sustainable energy, and resilient infrastructure."

2017– The Birth of a Vision * Milestone: Incorporation of SAT Holdings Pvt Ltd.

Started as a dedicated construction, import, and trading company, laying the foundation for the group's logistical and infrastructural strength.

2024 – Committed to Sustainability * Milestone: Founding of SAT Energy Solutions Pvt Ltd

Ventured into the renewable energy sector to address the nation's growing power needs through clean, sustainable solar technology.

Successfully commissioned and connected our 500kW rooftop solar plant in Tangalle to the National Grid. With 775 panels and an annual yield of **800MWh**, this project stands as a shining example of our commitment to a greener Sri Lanka.

2024 – Nurturing the Earth * Milestone: Incorporation of SAT Green Agro Pvt Ltd.

Diversified into the agricultural sector, bringing a modern, technology-driven approach to traditional farming and produce trading.

2026 – Expanding into Electronics * Milestone: Launch of SAT Electronics Pvt Ltd.

Recognized the need for high-quality, locally accessible technology. We began our journey into the electronics sector with a focus on precision and reliability.

2026 – Embracing "Made in Sri Lanka" * Milestone: Commencement of Rice Cooker Manufacturing.

Achieved a major milestone by establishing our own manufacturing facility. We launched our flagship Rice Cookers under the "**Made in Sri Lanka**" label, proving that local engineering can match global standards.
