# OUR TEAM

---

A team is a group of individuals working together to achieve their goal.

Teams normally have members with complementary skills and generate synergy through a coordinated effort which allows each member to maximize their strengths and minimize their weaknesses.

# MD's Message

---

SAT Holdings pride itself for being a total construction solution provider for both Sri Lankan and overseas customers. Within a relatively short period of time the company experienced a rapid growth from a small contractor in undertaking and completing major nation and even overseas construction projects.

The journey has been challenging and at the same time a great learning experience for all of us. Every new project forced us to learn new skills and adopt new technologies to deliver an exceptional quality final creation. Today KSJ has grown and spread its wings even in the international arena posing both a challenge and a benchmark to the long standing giants in the construction industry.

We realized there are several factors for this remarkable success- the underlying philosophy, the people and the commitment to continuous improvement. We believe the customers are the most important people to consider and we focus on the lifetime value of the customers and the values we add to their lives in the long run.

Finally, I would like to express my gratitude to the dedicated and motivated staff of the SAT Holdings. They are the chief asset and the backbone of the company to confidently undertake and delivering exceptional quality construction projects.
